Roon Studio | Frontend Developer (2022 > Current)

I started working with them last year and this is the best job I've had in my life so far, They are so caring and helpful all the time and they feel like a second family to me. I work there mainly using NextJS, TypeScript and Tailwind CSS, plus some other cool tech like (react-query, framer-motion and others....)

Tortoiz Themes | Frontend web developer (2021 > 2022)

I worked for some time for Tortoiz Themes and made some work including and not only: ReactJS, HTML, Tailwind and SCSS

S k i l l s

- Pixel perfect design conversion
- NextJS
- ReactJS
- Typescript
- Tailwindcss
- SCSS
- HTML, CSS and JavaScript
- Others
